Thank you for purchasing this Panasonic product. Please read these instructions carefully before operating this product and retain them for future reference. The images shown in this manual are for illustrative purposes only. Please refer to Pan European Guarantee Card if you need to contact your local Panasonic dealer for assistance.
Do not display any still part of the image for a long period
In such cases the still part of the image remains dimly on the plasma screen (“image retention”). This is not considered a malfunction and is not covered by the warranty.

Typical still image parts:
- Channel number, channel logo and other logos
- Still or moving pictures viewed in 4:3 or 14:9 aspect ratio
- Video games
- Images from PC

To avoid image retention, the contrast is lowered automatically and the screen becomes dim after a few minutes if no signals are sent or no operations are performed. (p. 97)

Notice for DVB / Data broadcasting / IPTV functions
- This TV is designed to meet the standards (as of August, 2011) of DVB-T (MPEG2 and MPEG4-AVC(H.264)) digital terrestrial services and DVB-C (MPEG2 and MPEG4-AVC(H.264)) digital cable services.
  Consult your local dealer for availability of DVB-T services in your area.
  Consult your cable service provider for availability of DVB-C services with this TV.
- This TV may not work correctly with the signal which does not meet the standards of DVB-T or DVB-C.
- Not all the features are available depending on the country, area, broadcaster, service provider and network environment.
- Not all CI modules work properly with this TV. Consult your service provider about the available CI module.
- This TV may not work correctly with CI module that is not approved by the service provider.
- Additional fees may be charged depending on the service provider.
- The compatibility with future services is not guaranteed.
- Check the latest information on the available services at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker’s peripheral devices.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard (“AVC Video”) and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use. Additional information may be obtained from MPEG LA, LLC. See http://www.mpegla.com.

Safety Precautions

Warning

Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
  - An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earthing connection.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
  - Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

Power source
- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.

Do not remove covers and NEVER modify the TV yourself
- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not expose to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

AC 220-240 V
50 / 60 Hz

Do not expose to rain or excessive moisture
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Do not insert foreign objects into the TV
- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base
- The TV may fall off or tip over.

Use only the dedicated pedestals / mounting equipment
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 7) / wall-hanging brackets (p. 6).

Do not allow children to handle SD Card
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Radio waves
- Do not use the TV in any medical institutions or locations with medical equipment. Radio waves from the TV may interfere with the medical equipment and cause accidents due to the malfunction.
- Do not use the TV near any automatic control equipment such as automatic doors or fire alarms. Radio waves from the TV may interfere with the automatic control equipment and cause accidents due to the malfunction.
- Keep the distance at least 22 cm from the TV when you have a cardiac pacemaker. Radio waves from the part may interfere with the operation of the pacemaker.

Caution

When cleaning the TV, remove the mains plug
- Cleaning an energized TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug
- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position
- Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat

Minimum distance

<table>
<thead>
<tr>
<th>Bottom of the TV</th>
<th>Surface where the TV is set</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 cm</td>
<td>10 cm</td>
</tr>
<tr>
<td>7 cm</td>
<td>10 cm</td>
</tr>
</tbody>
</table>

- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents
- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not expose your ears to excessive volume from the headphones
- Irreversible damage can be caused.

Do not apply strong force or impact to the display panel
- This may cause damage resulting in injury.

The TV is heavy. Handle the TV by 2 or more people. Support as shown to avoid injury by the TV tipping or falling.

Bluetooth® wireless technology
- The TV uses the 2.4 GHz radio frequency ISM band (Bluetooth®). To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, other Bluetooth devices, microwaves, mobile phones and the devices that use 2.4 GHz signal.
## Accessories / Options

Use the Ferrite cores to comply with the EMC standard.

- Accessories may not be placed all together. Take care not to throw them away unintentionally.
- This product contains possibly dangerous parts (such as plastic bags), that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

### Optional accessories

Please contact your local Panasonic dealer to purchase the recommended optional accessories. For additional details, please read the manual of the optional accessories.

#### Wall-hanging bracket

- TY-WK4P1RW
- Tilting angle for this TV: 0 (vertical) to 20 degrees (TX-P42UT50E) / 10 degrees (TX-P50UT50E)

![Wall-hanging bracket diagram](View from the side)

- Depth of screw: minimum 17 mm, maximum 35 mm
- Diameter: M8
- Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

### Warning

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.
3D Eyewear
- TY-ER3D4ME
- TY-ER3D4SE
- If you need 3D Eyewears, please purchase this optional accessory.
- Use Panasonic 3D Eyewear supporting Bluetooth wireless technology.
- For more information (English only):
  http://panasonic.net/avc/viera/3d/eu.html

Wireless Adaptor for VIERA
- TY-WL20E
- To use the Wireless Adaptor, an access point needs to be obtained.
- Depending on the area, this optional accessory may not be available.
- Additional information for Wireless Adaptor and access point may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Communication Camera
- TY-CC20W
- This camera can be used on VIERA Connect (p. 19, 79).
- Depending on the area, this optional accessory may not be available.
- For details, consult your local Panasonic dealer.

Installing / removing remote’s batteries

1. Pull Open
2. Close

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries.
- Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.

Attaching / removing the pedestal

Warning
Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution
Do not use any pedestal other than the one provided with this TV.
- Otherwise the TV may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.
During set-up, make sure that all screws are securely tightened.
- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.
When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure. (p. 9)
- Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.
**Assembling the pedestal**

1. Insert the tabs of the neck 🎡 into the base ⬇️ firmly

2. Turn the base ⬆️ over and fix the neck 🎡 securely with assembly screws ⛄️
   - Do not hold the neck when turning over the base.

3. Attach the bracket 🎡 to the tabs of the neck 🎡 and fix with assembly screws ⛄️

4. Attach the cover 🎡 and fix securely with assembly screw ⛄️

**Securing the TV**

Use the assembly screws ⛄️ to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.
Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.

1. Remove the assembly screws from the TV.
2. Pull out the pedestal from the TV.
3. Remove the assembly screw from the cover.
4. Remove the assembly screws from the bracket.
5. Remove the assembly screws from the back of the base and pull out the neck.

Preventing the TV from falling over
Using the fall-prevent screw hole and a screw (commercially available), securely fix the body of the pedestal to the installation surface.

* The place where the pedestal is to be fixed should be thick enough and made of hard material.
Identifying Controls

**Remote Control**

1. **Standby On / Off switch**
   - Switches TV on or off standby.

2. **3D button** (p. 33)
   - Switches the viewing mode between 2D and 3D.

3. **[Main Menu]** (p. 37)
   - Press to access Picture, Sound, Network, Timer and Setup Menus.

4. **Aspect** (p. 23)
   - Changes aspect ratio.

5. **Information** (p. 21)
   - Displays channel and programme information.

6. **VIERA TOOLS** (p. 36)
   - Displays some special feature icons and accesses easily.

7. **INTERNET (VIERA Connect)** (p. 19, 79)
   - Displays VIERA Connect home screen.

8. **OK**
   - Confirms selections and choices.
   - Press after selecting channel positions to quickly change channel.
   - Displays the Channel List.

9. **[Option Menu]** (p. 22)
   - Easy optional setting for viewing, sound, etc.

10. **Coloured buttons** (red-green-yellow-blue)
    - Used for the selection, navigation and operation of various functions.

11. **Teletext** (p. 27)
    - Switches to teletext mode.

12. **Subtitles** (p. 21)
    - Displays subtitles.

13. **Numeric buttons**
    - Changes channel and teletext pages.
    - Sets characters.
    - When in Standby mode, switches TV on (Press for about 1 second).

14. **Sound Mute**
    - Switches sound mute on or off.

15. **Volume Up / Down**

16. **Input mode selection**
    - TV - switches DVB-C / DVB-T / Analogue mode. (p. 20)
    - AV - switches to AV input mode from Input Selection list. (p. 29)

17. **Surround** (p. 40)
    - Switches surround sound setting.

18. **Normalise** (p. 37)
    - Resets picture and sound settings to their default levels.

19. **Exit**
    - Returns to the normal viewing screen.

20. **TV Guide** (p. 24)

21. **Cursor buttons**
    - Makes selections and adjustments.

22. **Return**
    - Returns to the previous menu / page.

23. **Hold**
    - Freezes / unfreezes the picture. (p. 22)
    - Holds the current teletext page (teletext mode). (p. 27)

24. **Index** (p. 27)
    - Returns to the teletext index page (teletext mode).

25. **Last view** (p. 23)
    - Switches to previously viewed channel or input mode.

26. **Channel Up / Down**

27. **Operations for contents, connected equipment, etc.** (p. 30, 62, 76, 86)
Indicator / Control panel

1 Function select
   *[Music] or [Speech] mode in the Sound Menu

2 Channel Up / Down, Value change (when using the F button), Switching the TV on (press either button for about 1 second when in Standby mode)

3 Changes the input mode

4 Mains power On / Off switch
   - Use to switch the mains power.
   - If you turned the TV off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV on with Mains power On / Off switch.

When pressing the control panel button (1 - 4), the control panel guide appears on the left side of the screen for 3 seconds to highlight the pressed button.

5 Remote control signal receiver
   - Do not place any objects between the TV remote control signal receiver and remote control.

6 C.A.T.S. (Contrast Automatic Tracking System) sensor
   - Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On].
   - (p. 38)

7 Power and Timer LED
   - Red: Standby
   - Green: On
   - Orange: Timer Programming On
   - Orange (flash): Recording of Timer Programming or Direct TV Recording in progress
   - Red with orange flash: Standby with Timer Programming On or Direct TV Recording
   - The LED blinks when the TV receives a command from the remote control.

Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

Operation guide

Operation guide will help you to operate by using the remote control.

Example: [Sound Menu]

How to use remote control

- MENU: Open the main menu
- Move the cursor / select from a range of options / select the menu item (up and down only) / adjust levels (left and right only)
- Access the menu / store settings after adjustments have been made or options have been set
- BACK/RETURN: Return to the previous menu
- EXIT: Exit the menu system and return to the normal viewing screen

Auto power standby function

The TV will automatically go into Standby mode in the following conditions:

- No signal is received and no operation is performed for 30 minutes in Analogue TV mode.
- [Off Timer] is active in the Timer Menu. (p. 22)
- No operation is performed for the period selected in [Auto Standby] (p. 42).
- This function does not affect the recording of Timer Programming and Direct TV Recording.
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads. There are some restrictions on placement for viewing 3D images. For details (p. 31, 32)

Terminals

1 USB 1 / 2 port (p. 61, 88)
2 SD Card slot (p. 61)
3 Headphone jack (p. 89)
4 CI slot (p. 57)
5 ETHERNET (p. 14)
6 DIGITAL AUDIO OUT (p. 88)
7 AV1 (SCART) (p. 13)
8 AV2 (COMPONENT / VIDEO) (p. 88)
9 Terrestrial / cable terminal (see below)
10 HDMI1 / 2 (p. 13, 88)

Connections

Mains lead and aerial

- DVB-C, DVB-T, Analogue

Mains lead

Terrestrial aerial

RF cable

Ferrite core - Large size (supplied)

Installing the Ferrite core

1 Pull back the tabs (in two places)
2 Wind the cable
3 Close

Less than 10 cm

If it is difficult to wind your cable, set the cable through as shown.

AC 220-240 V 50 / 60 Hz

Mains lead

To remove from the TV:

1 Press both tabs and pull on mains connector to release

Make sure that the mains lead is securely fixed.

Take care of the Ferrite core not to move.
### AV Devices

**Player / 3D compatible player**

- Connect to the TV’s AV1 for a DVD Recorder / VCR supporting Q-Link (p. 82).
- Q-Link and VIERA Link connection (p. 80, 81)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- When using a SCART or HDMI cable, use the fully wired one.
- Check the type of terminals and cable plugs are correct when connecting.

**DVD Recorder / VCR**

**DVD Recorder / VCR and Set top box**
Network

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Prepare the internet environment for wired connection or wireless connection.
- Setup of the network connection will start after the tuning (when first using the TV).  

**Wired connection**

- LAN cable (Unshielded)
  - Use the Unshielded Twist Pair (UTP) LAN cable.

**Wireless connection**

- Wireless Adaptor
  - “Optional accessories” (p. 7)
  - Connect to the USB 1 or 2 port.
Auto Setup

Search and store TV channels automatically.
- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 12 - 14) and settings (if necessary) of the connected equipment before starting Auto Setup. For details of settings for the connected equipment, read the manual of the equipment.

1. Plug the TV into mains socket and switch on
   - Takes a few seconds to be displayed.
   - If the red LED shows on the TV, press the Standby On / Off switch on the remote control for about 1 second.

2. Select the language

3. Select your country
   - Depending on the country you select, select your Region or store the Child Lock-PIN number (“0000” cannot be stored) by following the on-screen instructions.

4. Select the mode to tune
   - : tune (search for the available channels)
   - : skip tuning

5. Select [Start Auto Setup]
   - Auto Setup will start to search for TV channels and store them.
   - The stored channels and sorted channel order vary depending on the country, area, broadcasting system and conditions of signal reception.

Auto Setup screen varies depending on the country you select.
1 [DVB-C Network Settings]
- Depending on the country you select, select your cable provider beforehand by following the on-screen instructions.

DVB-C Network Settings
- Frequency: Auto
- Network ID: Auto
- Select [Start Auto Setup]

Normally set [Frequency] and [Network ID] to [Auto].
If [Auto] is not displayed or if necessary, enter [Frequency] and [Network ID] specified by your cable provider with numeric buttons.

2 [DVB-C Auto Setup]
- DVB-C Auto Setup
- Frequency: Free TV
- Network ID: Free TV

[DVB-C Auto Setup] (p. 5)

3 [DVB-T Auto Setup]
- DVB-T Auto Setup
- Channel Name: CBBC Channel
- Type: Pay TV

[DVB-T Auto Setup] (p. 6)

4 [Analogue Auto Setup]
- Analogue Auto Setup
- Channel Name: BBC Radio Wales
- Type: Radio

[Analogue Auto Setup] (p. 6)

5 Preset Download
- If Q-Link, VIERA Link or similar technology (p. 82, 83) compatible recorder is connected, channel, language and country/region settings are automatically downloaded to the recorder.

Preset Download
- Sending Preset Data

Preset Download (p. 6)

Setup the network connection
- Setup the network connection to enable the network service functions such as VIERA Connect, etc. (p. 19, 70).
- To setup the wireless connection, the Wireless Adaptor (optional accessory) is required. Please note that this TV does not support wireless public access points.
- Ensure the network connections (p. 14) and network environment are completed before starting setup.

Select the network type
- Network Setup
- Select Wired or Wireless

Select the network type (p. 7)

6 [Wired]
- “Wired connection” (p. 14)
- “Wireless connection” (p. 14)

[Wired] “Wired connection” (p. 7)

Connection Test
- Check network cable connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

Connection Test
- : succeeded
- : failed

Automatic setup is done and the test of the network connection starts.
- To set manually, select [Manual] and set each item. For details (p. 73)
Access points found automatically are listed.

1. Select your desired access point

<table>
<thead>
<tr>
<th>Available Wireless Networks</th>
<th>No.</th>
<th>Network Name(SSID)</th>
<th>Wireless type</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access Point A</td>
<td>11n(2.4GHz)</td>
<td></td>
<td>(red)</td>
</tr>
<tr>
<td>2</td>
<td>Access Point B</td>
<td>11n(5GHz)</td>
<td></td>
<td>(red)</td>
</tr>
<tr>
<td>3</td>
<td>Access Point C</td>
<td>11n(5GHz)</td>
<td></td>
<td>(red)</td>
</tr>
</tbody>
</table>

- Select your desired access point
- For [WPS(Push button)] (p. 18)
- Encrypted access point

To search access points again

2. Access the encryption key input mode

Encryption Key Setting

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

You can set characters by using numeric buttons.

3. Enter the encryption key of the access point

Wireless Network Settings

Set characters

4. After the access point setting is finished, perform the connection test

Connection Test

- Check wireless network connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

\(\textbf{\textcolor{green}{\checkmark}}\): succeeded

The test is successful and the TV is connected to the network.

\(\textbf{\textcolor{red}{\times}}\): failed

Check the settings and connections. And then select [Retry].

To set manually, select [Manual] and set each item. For details \(\Rightarrow\) (p. 73)

5. Go to the next step

(Press twice)
1. Press the WPS button on the access point until the light flashes.
2. Connect the Wireless Adaptor and the access point.

- Ensure that your access point supports WPS for this setup.
- WPS: Wi-Fi Protected Setup™
- If the connection has failed, check the settings and positions of your access point. And then, follow the on-screen instructions.

3. After the access point setting is finished, perform the connection test.

- Check wireless network connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

4. Go to the next step.

Select [Home]
Select [Home] viewing environment to use in your home environment.

- [Shop] viewing environment (for shop display only)
  [Shop] viewing environment is the demonstration mode to explain main features of this TV.

Select [Home] viewing environment to use in your home environment.
- You can return to viewing environment selection screen at the stage of Shop confirmation screen.

1. Return to viewing environment selection screen
2. Select [Home]

To change viewing environment later on, you will need to initialise all settings by accessing Shipping Condition. ⇒ [Shipping Condition] (p. 58)

Auto Setup is now complete and your TV is ready for viewing.
If tuning has failed, check the connection of the RF cable, and then, follow the on-screen instructions.

Note
- To check the channel list ⇒ “Using TV Guide” (p. 24)
- To edit or hide (skip) channels ⇒ “Tuning and Editing Channels” (p. 48 - 51)
- To re tune all channels ⇒ [Auto Setup] (p. 46, 47)
- To add the available TV mode later ⇒ [Add TV Signal] (p. 43)
- To initialise all settings ⇒ [Shipping Condition] (p. 58)

If you connect the Wireless Adaptor later on, the confirmation screen will be displayed for the setup.
- To setup the wireless connection ⇒ (p. 74, 75)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.

- This TV does not support full web browser function and some features of the websites may not be available.

1. Turn power on

- Press for about 1 second.
- Mains power On / Off switch should be on. (p. 11)

- Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

2. Access VIERA Connect

While the banner is displayed

- Depending on the usage conditions, it may take a while to read all the data.
- Messages might be displayed before VIERA Connect home screen.

Please read these instructions carefully and follow the on-screen instructions.

Example: VIERA Connect home screen

- To go to the next level, select [MORE].
- To back to the previous level, select [BACK].
- To return to VIERA Connect home screen

To set the VIERA Connect introduction banner display off

- [VIERA Connect Banner] (p. 44)

- Video communication (for example Skype™) requires an exclusive Communication Camera TY-CC20W.

  “Optional accessories” (p. 7)

  For details, read the manual of the Communication Camera.

- You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect.

  You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features.

  For more information “USB connection” (p. 95)

Note

- If you cannot access VIERA Connect, check the network connections (p. 14) and settings (p. 16 - 18).
- For more information of VIERA Connect (p. 79)
Watching TV

**Turn power on**
- Press for about 1 second.
- Mains power On / Off switch should be on. (p. 11)

**VIERA Connect introduction banner appears**
Every time you turn on the TV, this banner appears at the bottom of the screen.
You can access to VIERA Connect easily and enjoy the various contents. (p. 19)
- To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
- To set this banner display off [VIERA Connect Banner] (p. 44)
- The banner is subject to change.

**Select the mode**

Off Timer

Turn the TV to Standby mode automatically after a fixed period

1 Display the menu

2 Select [Timer]

3 Select [Off Timer] and set the time in 15-minute increments

- To cancel, set to [Off] or turn the TV off.
- To confirm the remaining time ⇒ “Display Information banner” (p. 21)
- When the remaining time is within 3 minutes, the remaining time will flash on the screen.
Aspect

Change the aspect ratio (image size)

Enjoy viewing the image at its optimum size and aspect. Programmes usually contain an “Aspect Control Signal” (Widescreen signal, etc.), and the TV will choose the aspect ratio automatically according to the “Aspect Control Signal” (p. 90).

■ To change the aspect ratio manually

1 Display Aspect Selection list

2 While the list is displayed, select the mode

- You can also change the mode only using the ASPECT button.

(Press repeatedly until you reach the desired mode.)

1. [Auto]

The best ratio is chosen and the image expanded to fill the screen. For details (p. 90)

2. [16:9]

Directly displays the image at 16:9 without distortion (anamorphic).

3. [14:9]

Displays the image at the standard 14:9 without distortion.

4. [Just]

Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

5. [4:3]

Displays the image at the standard 4:3 without distortion.

6. [4:3 Full]

Displays a 4:3 image enlarged horizontally to fit the screen.

7. [Zoom1]

Displays a 16:9 letterbox or 4:3 image without distortion.

8. [Zoom2]

Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

9. [Zoom3]

Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note

- Aspect cannot be changed in teletext service and 3D mode.
- Aspect mode can be memorised separately for SD (Standard definition) and HD (High definition) signals.

Switch to previously viewed channel or input mode easily

Press again to return to the current view.

Note

- Switching channel is not available while the recording of Timer Programming or Direct TV Recording is in progress.
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
Using TV Guide

TV Guide - Electronic Programme Guide (EPG) provides an on-screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

- This function varies depending on the country you select (p. 15).
- The postcode entry or update may be required to use the GUIDE Plus+ system depending on the country you select.
- “View advertisement” (p. 25)
- DVB-T and Analogue channels are displayed on the same TV Guide screen. [D] and [A] may be displayed to distinguish DVB-T and Analogue channels. There will be no programme listings for Analogue channels.
- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

Select the mode

1 Select the mode

- Press again to change the layout ([Landscape] / [Portrait]).
- View [Landscape] to see several channels.
- View [Portrait] to see one channel by time.

View TV Guide

Example: [Landscape]

Example: [Portrait]

To return to TV

To watch the programme

1. Select the current programme or channel
2. Select [View] (DVB)

To use Timer Programming

1. select
2. watch

Depending on the country you select, you can select the TV Guide type
[Default Guide] (p. 44)
If you select [Channel List], the channel list will appear when the GUIDE button is pressed.
Using TV Guide

To the previous day (DVB)

(Type list)

(Category list)

Other useful functions

View details of the programme (DVB)

1 Select the programme

2 View details

Press again to return to TV Guide.

View advertisement

Depending on the country you select, this TV supports the GUIDE Plus+ system in DVB-T or Analogue mode.

The postcode entry or update is required. Follow the on-screen instructions.

- You can also setup manually from the Setup Menu.
  ➪ [Update] / [Postcode] in [GUIDE Plus+ Settings] (p. 45)
- Enter your postcode when using this function for the first time. If you enter an incorrect postcode for your area, or no postcode is entered, advertisements may not be displayed correctly.

Display advertisement information

- To display the latest advertisement
  ➪ [Update] in [GUIDE Plus+ Settings] (p. 45)

To change advertisements

To return to TV Guide

Note

- To update the information continuously, the TV must be left in Standby mode.
Timer Programming (DVB)

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode.

1 Select the forthcoming programme

2 Select the function ([Ext Rec.] or [Reminder])

- LED will turn to orange if Timer Programming is set.
  (Orange LED will flash if the recording of Timer Programming is in progress.)
  ➤ “Indicator / Control panel” (p. 11)

[Ext Rec.] / [Reminder]

➤ “Set timer programming event details” (p. 53)

■ To check / change / cancel a timer programming event
  ➤ “Timer Programming” (p. 52 - 54)

■ To return to TV Guide

BACK/RETURN

■ If you select the current programme

A confirmation screen asking whether you want to watch or record the programme appears.
Select [Timer Programming] and set [Ext Rec.] to record from the time you finish the timer programming event setting.

Note

- This function is not available in Analogue mode.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.

If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 82, 83) and [Link Settings] (p. 42) are completed, no setting of the recorder is required. Also read the manual of the recorder.
Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

**What is FLOF (FASTEXT) mode?**
In FLOF mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

**What is TOP mode?** (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen

**What is List mode?**
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. “Store frequently viewed pages” (p. 28)

### To change mode ➔ [Teletext] (p. 44)

#### Switch to Teletext
- Displays the index page (content varies depending on the broadcasters).

#### Select the page
- To select among subject blocks
- To select next subject within the subject block
  (After the last subject, it moves to the next subject block.)
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen

#### To adjust contrast
- As the blue bar is displayed
  (Press three times)

#### Reveal hidden data
- Reveal hidden words e.g. quiz page answers
  (Press again to rehide.)

#### INDEX
- Return to the main index page

#### Hold
- Stop automatic updating
  (If you want to hold the current page without updating.)
  (Press again to resume.)

#### Call up a favourite page
- View a favourite page stored
  Call up the page stored on the blue button (List mode).
  (Factory setting is “P103”.)
FULL / TOP / BOTTOM

(Viewing Teletext)

  - (green)
  - (TOP)
  - (BOTTOM)
  - Normal (FULL)

(Expand the TOP half)
(Expand the BOTTOM half)

View in multi window

Watch TV and Teletext in two windows at once

- Menu
  - Select [Picture and text] On or Off
  - (Press twice)

- Operations can be made only in teletext screen.

Store frequently viewed pages

Store frequently viewed pages in the colour bar (List mode only)

- As page is displayed
  - (Corresponding coloured button)
  - press and hold

- To change stored pages
  - Coloured button you want to change
  - Enter new page number
  - (Press twice)
  - press and hold

View sub page

View sub page (Only when Teletext is more than one page)

- Appears at top of the screen
- The number of sub pages varies depending on the broadcasters (up to 79 pages).
- It may take some time for searching, during which time you can watch TV.

To view specific sub page

- Enter the 4-digit number
  - Example: P6

Watch TV while waiting for update

View the TV picture while searching for a teletext page

- Teletext automatically updates itself when new information becomes available.
- View the updated page
- (You cannot change the channel.)

- The news page provides a function that indicates arrival of the latest news (“News Flash”).
Watching External Inputs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch through the input.

1. To connect the equipment (p. 12 - 14, 88 - 89)
The remote control is capable of operating the contents or external equipment. (p. 30)

2. Turn the TV on

When connecting with SCART (p. 13)
Receives input signals automatically when playback starts
- Input signals are automatically identified by the SCART (pin 8) terminal.
- This function is also available for HDMI connections (p. 88).

If input mode is not switched automatically
Perform 2 and 3
- Check the setup of the equipment.

3. Display the input selection menu

4. Select the input mode connected to the equipment

You can also select the input using the AV button on the remote control or the TV (except [SD Card/USB]).
Press the button repeatedly until the desired input is selected.
- To switch between [COMPONENT] and [VIDEO] in [AV2], move the indicator by pressing left and right cursor button.
- [SD Card/USB]: Switches to Media Player. “Using Media Player” (p. 61)
- You can label or skip each input mode (except [SD Card/USB]). “Input Labels” (p. 44)
Skipped inputs will not be displayed when the AV button is pressed.

5. View

Displays the selected mode

Note
- If the external equipment has an aspect adjustment function, set it to “16:9”.
- For details, read the manual of the equipment or ask your local dealer.
Operating the contents or equipment with the TV remote control

You can operate the contents in Media Player / media servers, recording functions or the connected equipment with the below buttons of this TV remote control.

<table>
<thead>
<tr>

How to change the code

Each type of the Panasonic equipment has its own remote control code. To use in some features of this TV, you have to select the code “73”. Change to the appropriate code according to the equipment or features below.

**Press and hold** during the following operations

Enter the appropriate code, see table below

<table>
<thead>
<tr>
<th>Type of the equipment, features</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder, DVD Player, Blu-ray Disc Player</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre, Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
<tr>
<td>Using in Media Player (p. 62), DLNA features (p. 76) or Direct TV Recording (p. 82, 84) Equipment using in VIERA Link (p. 85)</td>
<td>73</td>
</tr>
</tbody>
</table>

**Note**

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.
Viewing 3D images

You can enjoy viewing 3D images with contents or programmes corresponding to the 3D effect by wearing the 3D Eyewear.  “Optional accessories” (p. 7)

This TV supports [Frame Sequential]*1, [Side by Side]*2 and [Top and Bottom]*3 3D formats.

*1: The 3D format that the images for the left and right eyes are recorded with the high definition quality and alternately played back.

*2, *3: Other available 3D formats

How to view the 3D images  (p. 33)

Caution

To use 3D Eyewear safely and comfortably, please read these instructions fully.

Viewing 3D Content

- Do not use the 3D Eyewear if you have a history of over-sensitivity to light, heart problems, or have any other existing medical conditions.
- Please stop using the 3D Eyewear immediately, if you feel tired, are not feeling well or experience any other uncomfortable sensation. When you set the effect by using [3D Adjustment], take into account that the vision of 3D images varies among different individuals.
- Take an appropriate break after viewing a 3D movie.
- Take a break of between 30 - 60 minutes after viewing 3D content on interactive devices such as 3D games or computers.
- Be careful not to strike the TV screen or other people unintentionally. When using the 3D Eyewear the distance between the user and screen can be misjudged.
- The 3D Eyewear must only be worn when viewing 3D content.
- Use the 3D Eyewear where there is no interference from other devices with Bluetooth signal.
- If you suffer from any eyesight problems (short / far-sighted, astigmatism, eyesight differences in left and right), please ensure to correct your vision before using the 3D Eyewear.
- Stop using the 3D Eyewear if you can clearly see double images when viewing 3D content.
- Do not use the 3D Eyewear at a distance less than the recommended distance.

The recommended viewing distance is at least 3 times of the image height.

TX-P42UT50E: 1.6 m or more
TX-P50UT50E: 1.9 m or more

When the top and bottom area of the screen is blackened, such as movies, view the screen at a distance at least 3 times of the height of the actual image. (That makes the distance closer than above recommended figure.)

3D Eyewear Use

- Pay special attention when children are using the 3D Eyewear.
- 3D Eyewear should not be used by children younger than about 5 - 6 years old, as a guideline. All children must be fully supervised by parents or guardians who must ensure their safety and health throughout the using 3D Eyewear.
- Before using the 3D Eyewear, ensure no breakable objects surrounding the user to avoid any accidental damage or injury.
- Remove the 3D Eyewear before moving around to avoid falling or accidental injury.
- Use the 3D Eyewear only for the intended purpose and nothing else.
- Do not use 3D Eyewear in the condition of high temperature.
- Do not use if the 3D Eyewear is physically damaged.
- Do not use devices (such as mobile phones or personal transceivers) that emit strong electromagnetic waves near the 3D Eyewear as this may cause the 3D Eyewear to malfunction.
- Stop using the 3D Eyewear immediately if a malfunction or fault occurs.
- Stop using the 3D Eyewear immediately if you experience any redness, pain, or skin irritation around the nose or temples.
- In rare cases, the materials used in the 3D Eyewear may cause an allergic reaction.
3D Eyewear (optional)

- Use the Panasonic 3D Eyewear that has this logo and supports Bluetooth® wireless technology.

“Full HD 3D Glasses™” logo indicates products that are compatible with the active shutter 3D glasses technology standards licensed by the Full HD 3D Glasses Initiative. The RF mark on the logo means the wireless system (Bluetooth® wireless technology), and you can use the 3D Eyewear and the TV that have the same mark together.

**Note**
- Use the 3D Eyewear within approximately 3.2 m from the TV. You cannot view the 3D images with the 3D Eyewear too far from the TV, because of the difficulty of receiving radio waves from the TV.
- The range may be shortened depending on the obstacles between the TV and the 3D Eyewear, or the surrounding environment.
- There are differences in the viewing range of the 3D Eyewear among individuals.
- The 3D Eyewear may not operate correctly at the outside of the viewing range.
To view the 3D images

You can enjoy the 3D images in a variety of ways. (Frame Sequential, Side by Side and Top and Bottom are the supported 3D format.)

■ Playing back 3D-compatible Blu-ray disc (Frame Sequential format)
  * Connect the 3D-compatible player via a fully wired HDMI compliant cable.
  * If input mode is not switched automatically, select the input mode connected to the player. (p. 29)
  * If you use the non 3D-compatible player, the images will be displayed on 2D mode.

■ 3D-supported broadcast
  * Please consult the suppliers of contents or programmes for availability of this service.

■ 3D photos and 3D videos taken by 3D-compatible Panasonic products
  * Available in Media Player (p. 63 - 65, 67) and Network services (p. 77)

■ 2D images converted to 3D
  * Set to [2D→3D] mode in [3D Mode Selection]. (p. 34)

Preparations
Perform the First Registration when the 3D Eyewear is used for the first time. For details, read the manual of the 3D Eyewear.

1 Turn the 3D Eyewear on and put it on
  * Connection status and battery status are displayed on the bottom right of the screen.

2 View the 3D images
  * Safety precautions will be displayed when you first watch the 3D image. Select [Yes] or [No] to continue to view 3D images.
    If you select [Yes], this message will be displayed again in the same condition after Mains power On / Off switch is next turned on. Select [No] if you do not want to display this message again.
    * Turn off the 3D Eyewear after using it.

Note
* 3D Eyewear is not included. Please purchase as necessary. (p. 7)
* For more detail about using and wearing the 3D Eyewear, read the manual of the 3D Eyewear.
* The 3D image or 3D effect may not be available in the following conditions:
  * VIERA Connect home screen (p. 19) is displayed.
  * [Ext Rec.] of Timer Programming (p. 52) is in progress.
  * Direct TV Recording (p. 82, 84) is in progress.
  As for the contents of the Frame Sequential format and Side by Side (Full), no images will be displayed in these conditions.
  * If light appears to flicker under fluorescents or dimmers when using the 3D Eyewear, change the setting of [3D Refresh Rate]. (p. 39)
  * 3D content will not be correctly visible if the 3D Eyewear is worn upside down or back-to-front.
  * Do not wear the 3D Eyewear when watching anything other than 3D images. Liquid crystal displays (such as computer screens, digital clocks or calculators, etc.) may be difficult to see while wearing the 3D Eyewear.
  * Do not use the 3D Eyewear as sunglasses.
  * 3D effects may be perceived differently depending on the person.

Changing 2D - 3D mode

You can easily change the viewing mode between 2D and 3D using the 3D button.

Select the mode

\[
\begin{align*}
3D \quad & \quad \text{Select the mode} \\
\end{align*}
\]

\[
\begin{align*}
\text{[3D]} & \quad \text{[2D]} & \quad \text{[2D→3D]} \\
\text{3D Mode Selection} & \quad \text{[2D→3D]} & \quad \text{3D} & \quad \text{2D} \\
\end{align*}
\]

\[
\begin{align*}
\text{① select} & \quad \text{② set} \\
\end{align*}
\]

* Items of [3D Mode Selection] vary depending on the condition.

\[
\begin{align*}
\text{[3D]} & \quad \text{[2D]} & \quad \text{[2D→3D]}: \\
\text{Displays the appropriate image that you desire without selecting 3D format.} \\
\text{This mode may not work properly depending on the source image format. In this case, select the appropriate 3D format manually.}
\end{align*}
\]
To change 3D format manually
When the image is not changed properly using [3D], [2D] or [2D→3D] mode, use this manual setting.

During the above operation

Select the mode

[Original]:
- Displays the source image as it is.
- Use to identify the format type of the source image.
- “Table of images that can be seen for each [3D Mode Selection (Manual)] and the source image format” (see below)

- Displays the mode you select.
- Not valid on Analogue and AV mode

[2D→3D]:
- Converts 2D images into 3D.
- Please note the 3D images appear slightly different from the originals.
- Using this function for profit-making purposes, or publically showing images converted from 2D to 3D in places such as shops or hotels etc. may infringe on the rights of the copyright holder protected under copyright law.

Table of images that can be seen for each [3D Mode Selection (Manual)] and the source image format
If the picture appears to be abnormal, refer to the table below to choose the correct 3D mode.

<table>
<thead>
<tr>
<th>Source image format</th>

*1: When selecting [Frame Sequential - 2D], [Side by Side - 2D] or [Top and Bottom - 2D], the images will be displayed without 3D effect.
- Depending on the player or broadcasts, the image may be different from the above illustrations.
# 3D Settings

If the 3D images are not displayed correctly or seem unusual, adjust and setup the 3D settings.

## 1 Display the menu

![Menu button]

To return to TV

## 2 Select [Picture]

![Picture button]

## 3 Select [3D Settings]

![3D Settings menu]

## 4 Select one of the following functions and set

![Select function and set]

### Item | Adjustments / Configurations (alternatives)
---|---
2D→3D Depth | Selects a level of 3D-image depth for viewing converted 2D images [Min] / [Mid] / [Max]
3D Adjustment | Adjustment of the 3D effect (except in [2D→3D] mode) [Off] / [On]
  - Set to [On] to enable [Effect] setting.
  - When setting to [On], a safety precaution message will appear. Read it carefully and press the BACK/RETURN button to go to [Effect] setting.
  - **[Effect]:** Adjusts the 3D depth according to the contents or to your preference.
Picture Sequence | Select [Reverse] if you feel that the sense of depth is unusual (except in [2D→3D] mode) [Normal] / [Reverse]
Edge Smoother | Set to [On] if you feel the contoured parts of an image are not smooth enough (except in [2D→3D] mode) [Off] / [On]
  - **[On (Advance)]:** Detects all the 3D format signals and displays the 3D image automatically.
  - **[On]:** Detects the particular 3D format signals (Frame Sequential, etc.) and displays the 3D image automatically.
  - To view 3D images without any notifications and operations, set to [On (Advance)].
3D Signal Message | Selects whether to give a notification message when a signal of 3D format is found [Off] / [On]
  - For DVB, Component and HDMI input
  - This function is not available when [3D Detection] is set to [On (Advance)].
Safety Precautions | Displays the precautions for viewing 3D images

**Note**

- [3D Adjustment] and [Picture Sequence] will not be memorised when changing the input mode or channel.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1. Display icons of the feature

2. Select a feature

To return to TV

Follow the operations of each feature

[VIERA Link]  (p. 84 - 87)

[Photo]*  (p. 63)

[Video]*  (p. 67)

[Music]*  (p. 69)

[VIERA Connect]  (p. 19, 79)

[Media Server]*  (p. 76)

*When two or more available devices are connected, a selection screen will be displayed. Please select the correct description and access.

Note

- If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1. Display the menu
   - Displays the functions that can be set (varies according to the input signal).

2. Select the menu
   - Select the menu
   - Access

3. Select the item
   - Choose from among alternatives
   - Adjust using the slide bar
   - Go to the next screen

   - To return to TV at any time
   - EXIT

   - To return to the previous screen
   - BACK/RETURN

   - To change menu pages
     - up
     - down

Enter characters by free input menu
You can enter names or numbers freely for some items.

Set characters one by one

Store

To reset the settings
- Picture or sound settings only
  - [Reset to Defaults] in the Picture Menu (p. 39) or Sound Menu (p. 41)
- To initialise all settings
  - [Shipping Condition] (p. 45)

You can set characters by using numeric buttons. ⇒ “Characters table for numeric buttons” (p. 96)
## Menu list

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>

</table>
| **Viewing Mode** |                                                                     | Selects your favourite picture mode for each input  
**[Dynamic]** / **[Normal]** / **[Cinema]** / **[True Cinema]** / **[Game]**  
**[Dynamic]**:  
Improves contrast and sharpness for viewing in a bright room.  
**[Normal]**:  
Normal use for viewing in a normal lighting condition.  
**[Cinema]**:  
Improves the performance of contrast, black and colour reproduction for watching movies in a darkened room.  
**[True Cinema]**:  
Reproduces the original image quality precisely without any revision.  
**[Game]**:  
Provides suitable images for fast response signal when playing games.  
* Not valid on TV mode  
* To display a continuous record of time spent using Game mode  
[Playing Time Display] (p. 44)  
In each Viewing Mode, [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [Eco Mode], [P-NR] and [3D-COMB] can be adjusted and stored for each input.  
Additionally, you can adjust the detailed settings when [Advance] in the Setup Menu is set to [On]. (p. 44)  
* You can set [Viewing Mode] in 2D and 3D mode for each.  
* Not valid on TV mode  
* To display a continuous record of time spent using Game mode  
[Playing Time Display] (p. 44)  
**Contrast, Brightness, Colour, Sharpness** | Adjusts the levels of these options according to your personal preference  
**Tint** | Adjusts the picture hue to suit your taste  
* For NTSC signal reception  
**Colour Balance** | Sets the overall colour tone of the picture [Cool] / [Normal] / [Warm]  
* Not valid when [Viewing Mode] is set to [True Cinema]  
**Vivid Colour** | Automatically adjusts colours to vivid ones [Off] / [On]  
**Eco Mode** | Automatic Brightness Control function  
Adjusts picture settings automatically depending on ambient lighting conditions [Off] / [On]  
**P-NR** | Picture Noise Reduction  
* Not valid when [Viewing Mode] is set to [Game]  
**3D-COMB** | Makes still or slow moving pictures more vivid [Off] / [On]  
* Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours.  
* For PAL / NTSC signal reception in TV mode or from composite (except 3D mode)  
**3D Settings** | Adjusts and sets to view 3D images (p. 35)  
**Screen Display** | Turns the screen off when you select [Off]  
[Off] / [On]  
* The sound is active even if the screen turns off.  
* Press any buttons (except Standby) to turn the screen on.  
* This function is effective in reducing power consumption when listening to the sound without watching the TV screen. |

<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| Advanced Settings | Intelligent Frame Creation | Automatically compensates the picture frame rate and removes juddering movements to make the images smooth [Off] / [Min] / [Mid] / [Max]
- Depending on the contents, images may be noisy. To prevent the noise, change the setting.
- Not valid when [Viewing Mode] is set to [Game] |
| | 24p Smooth Film | Automatically compensates the picture frame rate to make the 24p source movie images smooth [Off] / [Min] / [Mid] / [Max]
- This is available only for 24p signal input and displayed instead of [Intelligent Frame Creation].
- Not valid when [Viewing Mode] is set to [Game] |
| | Film Cadence Detection | Improves vertical resolution for movie images [Off] / [On]
- This function is available for the interlaced signal (except in VIERA Connect or when [Viewing Mode] is set to [Game]). |
| | 3D Refresh Rate | Reduces juddering and flicker noises of the 3D images when using the 3D Eyewear [Auto] / [100Hz] / [120Hz]
- [100Hz]: If light appears to flicker under fluorescents (or dimmers) of 50 Hz.
- [120Hz]: If light appears to flicker under fluorescents (or dimmers) of 60 Hz. |
- The recommended setting is [High] to prevent panel “image retention”. |
| | 16:9 Overscan | Selects the screen area displaying the image [Off] / [On]
- [On]: Enlarges the image to hide the edge of the image.
- [Off]: Displays the image in the original size.
- Set to [On] if noise is generated on the edge of the screen.
- This function is available when aspect is set to [Auto] (16:9 signal only) or [16:9].
- This function can be memorised separately for SD (Standard definition) and HD (High definition) signals.
- Not valid on VIERA Connect |
| | DVI Input Setting | Changes the black level of the image for HDMI input mode with DVI input signal manually [Normal] / [Full]
- When the DVI input signal from the external equipment (especially from PC) is displayed, the black level may not be suitable. In this case, select [Full].
- The black level for HDMI input signal will be adjusted automatically.
- For HDMI input mode with DVI input signal |
| | Pixel Orbiter | Selects the mode for wobbling of the image to prevent panel “image retention” [Auto] / [On]
- [Auto]: Automatically works only for the appropriate images and you rarely recognise the wobbling. |
| | Scrolling Bar | Displays scrolling bar pattern to assist elimination of panel “image retention”
- Press the OK button to start scrolling and press any buttons (except Standby) to exit this mode.
- For positive effect to eliminate “image retention”, it may be necessary to display for a long time. |
| | Reset to Defaults | Press the OK button to reset the current Picture Viewing Mode of the selected input to the default settings |
### Menu Functions

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| Mode | Selects your favourite sound mode **[Music] / [Speech] / [User]**  
- **[Music]**: Improves sound quality for watching music videos, etc.  
- **[Speech]**: Improves sound quality for watching news, drama, etc.  
- In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.  
- **[User]**: Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.  
  - For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select [Equaliser] and adjust the frequency.  
  - [Equaliser] (see below) | |
| Bass | Adjusts level to enhance or minimise lower, deeper sound output | |
| Treble | Adjusts level to enhance or minimise sharper, higher sound output | |
| Equaliser | Adjusts the frequency level to suit your favourite sound quality  
- This function is available when [Mode] is set to [User].  
- Select the frequency and change the frequency level by using the cursor button.  
- To enhance the bass sound, raise the level of the lower frequency. To enhance the treble sound, raise the level of the higher frequency.  
- To reset the levels of each frequency to the default settings, select [Reset to Defaults] by using the cursor button, and then press the OK button. | |
| Balance | Adjusts volume level of right and left speakers | |
| Headphone Volume | Adjusts the volume of the headphones | |
| Surround | Surround sound settings **[Off] / [V-Audio] / [V-Audio Surround]**  
- **[V-Audio]**: Provides a dynamic enhancer of width to simulate improved spatial effects.  
- **[V-Audio Surround]**: Provides a dynamic enhancer of width and depth to simulate improved spatial effects.  
- Switching is also possible by the SURROUND button on the remote control (p. 10). | |
| Auto Gain Control | Automatically regulates large sound level differences between channels and inputs **[Off] / [On]** | |
| Volume Correction | Adjusts the volume of individual channel or input mode | |
| Speaker Distance to Wall | Compensates for the low frequency sound due to the distance between the speakers and the wall **[Over 30cm] / [Up to 30cm]**  
- If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended.  
- If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended. | |
| MPX | Selects multiplex sound mode (if available)  
- **[Stereo]**: Use this normally.  
- **[Mono]**: When stereo signal cannot be received.  
- **[M1] / [M2]**: Available while mono signal is transmitted.  
  - For Analogue mode | |

### Sound Settings

- **Bass**: Adjusts level to enhance or minimise lower, deeper sound output.
- **Treble**: Adjusts level to enhance or minimise sharper, higher sound output.
- **Equaliser**: Adjusts the frequency level to suit your favourite sound quality.
- **Balance**: Adjusts volume level of right and left speakers.
- **Headphone Volume**: Adjusts the volume of the headphones.
- **Surround**: Surround sound settings are available.
- **Auto Gain Control**: Automatically regulates large sound level differences between channels and inputs.
- **Volume Correction**: Adjusts the volume of individual channel or input mode.
- **Speaker Distance to Wall**: Compensates for the low frequency sound due to the distance between the speakers and the wall.
- **MPX**: Selects multiplex sound mode (if available).

* This function is available when in Standby mode.                                                                                                                             |
|               | Power Save                       | Reduces brightness of the picture to economise on power consumption [Off] / [On]                                                                                                                                                           |
|               | Time Zone                        | Adjusts the time data  
* The time data will be corrected based on GMT.                                                                                                                                                                                       |

*The settings in [Tuning Menu] are applicable only for the selected TV mode. The menu name varies depending on the TV mode. ([DVB-C Tuning Menu] / [DVB-T Tuning Menu] / [Analogue Tuning Menu])

* A different menu will be displayed when [Advance] in the Setup Menu is set to [On] or in the mode of Media Player / network service operations. (p. 60, 62 - 69, 76 - 79)

* Only available items can be selected.
Retuning from Setup Menu

Automatically retune the channels received in the area.
* This function is available if channel tuning is already performed.
* Only the selected mode is retuned. All the previous tuning settings are erased.
* If Child Lock PIN number (p. 55) has been set, the PIN number is required.
* If tuning has not been done completely ➔ [Manual Tuning] (p. 50)

DVB-C, DVB-T, Analogue channels

1. Select DVB-C, DVB-T or Analogue ➔ (p. 20)

2. Display the menu and select [Setup]

3. Select [DVB-C Tuning Menu], [DVB-T Tuning Menu] or [Analogue Tuning Menu]

4. Select [Auto Setup]

5. Set the Auto Setup settings (DVB-C)

   - After settings, select [Start scan].

6. Start Auto Setup (Settings are made automatically)

DVB-C:

All DVB-C tuning data will be erased

Searching

This will take about 3 minutes.

Progress: 0% 100%

Progress: 0% 100%
DVB-T:

DVB-T Auto Setup

All DVB-T tuning data will be erased

Analogue:

Analogue Auto Setup

All analogue tuning data will be erased

The channel, language and country / region settings are downloaded to Q-Link or VIERA Link compatible equipment connected to the TV.

When the operation is completed, the channel at the lowest position will be displayed.

Auto setup using the buttons on the TV

For Auto Setup, using the buttons on the TV (p. 11)

1. Press the F button repeatedly until [Auto Setup] appears
   - F
2. Access [Auto Setup]
   - TV
3. Set the search mode and scan mode (DVB-C)
   - (select the item)
   - (set)
   - (store)
4. Start [Auto Setup]
   - TV

- To return to TV
  - F
- Control panel OSD appears when pressing the control panel button.
Tuning and Editing Channels

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

1 Select the mode
(p. 20)

2 Display the menu and select [Setup]

3 Select [DVB-C Tuning Menu], [DVB-T Tuning Menu] or [Analogue Tuning Menu]

4 Select one of the following functions

List favourite DVB channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4: [Favourites]1 to 4).
The DVB Favourites lists are available from “Category” in the Information banner (p. 21) and the TV Guide screen (p. 24).

1 Select a channel to list (Encrypted channel)
Example: DVB-C

2 Add it to the Favourites list
Example: DVB-C
To edit Favourites list

While the cursor is in the Favourites field to edit
- To move the channel
  - Select the new position
  - Store (green)
- To delete the channel
  - (green)
- To delete all channels
  - (yellow)
- To name the Favourites
  - Set characters (maximum 10 characters)
  - Store (red)
- To use numeric buttons
  - (p. 96)

3 Store BACK/RETURN

Skip unwanted channels, Edit Channels [Channel List]

You can hide (skip) unwanted channels.
The hidden channels cannot be displayed except in this function.

Select a channel and reveal / hide
Example: DVB-C

</tbody>
</table>

Display a notification message [New Channel Message] (DVB)

Selects whether to give a notification message when a new DVB channel is found.

- Selecting OK will perform [Update Channel List].

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of suitable signal for DVB reception. Use the Signal Quality indicator as follows.
- Green bar: Good
- Yellow bar: Poor
- Red bar: Bad (Check the Terrestrial aerial or cable)

Example:

<table>
<thead>
<tr>
<th>DVB-C Signal Condition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Channel Name</td>
</tr>
<tr>
<td>Signal Quality</td>
</tr>
<tr>
<td>Signal Strength</td>
</tr>
<tr>
<td>Bit Error Rate</td>
</tr>
<tr>
<td>Network Name</td>
</tr>
<tr>
<td>Parameter</td>
</tr>
</tbody>
</table>

These bars show the maximum signal value of the selected channel.
Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode. TV Guide may also be used to set timer programming event (p. 26).

- This function is not available in Analogue mode.
- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either on or in Standby. For reminders to be displayed, the TV must be on.
- No other channel can be selected while the recording of Timer Programming is in progress.
- Recording an encrypted (copy-protected) programme may not be possible.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV. If a recorder compatible with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 82, 83) and [Link Settings] (p. 42) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- If the recorder is not compatible with Q-Link, VIERA Link or similar technologies, make timer programming of the recorder. For preparations of a recorder, read the manual of the recorder.
- Recording to the external equipment via SCART is always in standard definition (composite video), even if the original programme is in high definition.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.
  - To remove the message and start the programming
  - To cancel the programming

1. Select DVB-C or DVB-T
   (p. 20)

2. Display the menu and select [Timer]

3. Select [Timer Programming]
Set timer programming event details

1 Start making the settings

2 Select the function ([Ext Rec.] or [Reminder])

[Ext Rec.]:
Records the programme to the external recorder. When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder]:
Reminds you to watch the programme. When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)
Set items in the order of 1 to 4.

select the item → set

* 1, 3 and 4 can also be entered with numeric buttons.

D 7 BBC7 17:00 18:30
D 1 BBC1 STTL 18:00 20:00
C 3 ITV1 ---- 21:30 22:30

: Overlapped timer programming events

Records with subtitles (if available)
* To indicate this (yellow)
(Press again to remove subtitles)

Duration (automatic display)

1 Channel number
2 Date
3 Starting time
4 Ending time

one day ahead daily or weekly (press repeatedly)

* [Daily Sun-Sat]: Sunday to Saturday
* [Daily Mon-Sat]: Monday to Saturday
* [Daily Mon-Fri]: Monday to Friday
* [Weekly Sat/Fri/Thu/Wed/Tue/Mon/Sun]: Same time on the same day every week

4 Store
- To edit a timer programming event
  Select the event

  - To change a timer programming event
    ➡️ Correct as necessary (p. 53)

  - To delete a timer programming event
    ➡️ (red)

  - To record with subtitles (if available)
    ➡️ (yellow)

  - To cancel a timer programming event temporarily
    ➡️ (blue)

- To unlock the tuner and stop recording

  ➡️ EXIT

**Note**
- Check that the LED is orange. If not, timer programming events are not active or not stored.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- “!” identifies that two or more timer programming events are overlapped. [Ext Rec.] is given priority over [Reminder]. As for the overlapped recording events, the first event starts and finishes as programmed. The next event can then start.
- The recording of Timer Programming will automatically change to the programmed channel a few seconds before the start time.
- To stop recording the timer programming event, it may be necessary to stop the recorder manually.
- The recording of Timer Programming will be performed even if the TV is in [Pause Live TV] recording (p. 85). In this case, [Pause Live TV] recording will be cancelled.
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

1. Display the menu and select [Setup]

2. Select [Child Lock]

3. Control channel audience [Child Lock]

- Enter the PIN number twice at first setting.
- Make a note of the PIN number in case you forget it.
- “0000” may be stored as the default PIN number which depends on the country you select (p. 15).

2. Select [Child Lock List]

3. Select the channel / input to be locked

- To sort channel names in alphabetical order
- To cancel all locks

To change the PIN number

1. Select [Change PIN] 2. Enter a new PIN number twice

To set Parental Rating

To watch the DVB programme that has the rating information over the selected age, enter the PIN number to watch (depending on the broadcaster).
Select [Parental Rating] and set an age for the restriction of programmes.

Note

- Setting [Shipping Condition] (p. 58) erases the PIN number and all settings.
Using Data Service Application

You can enjoy Hybrid Broadcast Broadband TV application that is one of the interactive data services for digital broadcasting.

- To use Hybrid Broadcast Broadband TV application fully, you need a broadband network environment. Ensure the network connections and network settings are completed.
  
  "Network connections" (p. 71), "Network Setup" (p. 72 - 75)

- Not all the data service are available depending on the country, area and broadcaster.

- Depending on the connection environment, the internet connection may be slow or may not be successful.

1. Select DVB-C or DVB-T
   - (p. 20)

2. Display the menu and select [Setup]

3. Select [Display Settings]

4. Select [Data Service Application] and set to [Auto Start On]

   Notification message will appear when the application is available. Follow the on-screen instructions.

   Note
   - Operations may vary depending on the broadcaster. Follow the on-screen instructions.
   - On-screen instructions may not correspond to the remote control buttons.

To check the availability of the application

To stop the application

"D" is displayed if programme has Hybrid Broadcast Broadband TV application
Using Common Interface

The Common Interface Module menu provides access to software contained on Common Interface (CI) Modules.

- This function may not be available in some countries or regions.
- Video and audio signals may not be output depending on broadcasts or services.

Although CI module may enable you to view some services, this TV does not guarantee all services (e.g. encrypted pay-TV channels).

Please use only the approved CI module by the broadcaster.

Consult your local Panasonic dealer or broadcasters for more information and conditions of the services.

**Caution**

- Turn off Mains power On / Off switch whenever inserting or removing the CI module.
- If a view card and a card reader come as a set, first insert the card reader, then insert the view card into the card reader.
- Insert the module in the correct direction.

**Insert the CI module (optional)**

- The features that appear on screen are dependent on the contents of the selected CI module.
- Normally encrypted channels will appear. Follow the on-screen instructions.
- If encrypted channel does not appear, perform below.
- For more details, read the manual of the CI module, or check with the broadcaster.

1. **Select DVB-C or DVB-T**
   - (p. 20)

2. **Display the menu and select [Setup]**

3. **Select [Common Interface]**

4. **Access Common Interface and follow the on-screen instructions**

   - On-screen instructions may not correspond to the remote control buttons.
Shipping Condition

Resets the TV to its original condition, i.e. no channels tuned in.
All settings are reset (channels, picture, sound settings, etc.).
* To retune TV channels only, e.g. after moving house => "Retuning from Setup Menu" (p. 46, 47)

1 Display the menu and select [Setup]

2 Select [System Menu]

3 Select [Shipping Condition]

Restore Settings [Shipping Condition]

1 Check the message and initialise

Shipping Condition
All tuning data will be erased
Are you sure?
Are you sure?

2 Follow the on-screen instructions

Reset to Factory Shipping Condition
Completed.
TV will automatically restart.
Do not turn off

* [Auto Setup] will automatically start. (p. 15)
Updating the TV Software

A new version of software may be released for download to enhance the performance or operations of the TV. If there is an update available, a notification message is displayed when the channel has the update information.

To download

(Press the EXIT button not to download)

You can update new software automatically or update manually.

1 Display the menu and select [Setup]

2 Select [System Menu]

3 Select [System Update]

Update TV’s software system [System Update]

To update automatically
Select [Auto Update Search in Standby]

- Every time you set, the TV automatically performs a search in Standby and downloads an update, if any software updates are available.
- The automatic updating is performed under the following conditions:
  - Standby (TV turned off with the remote control)
  - Recording of Timer Programming or Direct TV Recording is not in progress.

If System Update is performed, the software will be updated (it may change TV functions).
If you do not want to do so, set [Auto Update Search in Standby] to [Off].

To update immediately

1 Select [System Update Search Now]

2 Searches for an update (for several minutes) and displays a corresponding message if any

3 Download

Note

- Download may take for about 60 minutes.
- During software download and update, DO NOT switch off the TV.
- The notification message might be a reminder. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is off.
Advanced Picture Settings

You can adjust and setup the detailed picture settings for each input and Viewing Mode.
* To use this function completely, set [Advance] to [On] in the Setup Menu. ⇒ (p. 44)

1. Select the input mode to adjust and setup
   ⇒ (p. 20, 29)

2. Display the menu and select [Picture]

3. Select [Viewing Mode] and set the mode

4. Select [Advanced Settings]

Adjust the detailed picture settings [Advanced Settings]

```

adjust
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory.

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode:
- Still pictures recorded by digital cameras will be displayed.

Video mode:
- Moving pictures recorded by digital video cameras will be played back.

Music mode:
- Digital music data will be played back.

- During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 42). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 81) and set to use theatre speakers (p. 87).
- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- Partly degraded files might be displayed at a reduced resolution.
- Picture setting may not work depending on the conditions.
- The folder and file names may be different depending on the digital camera or digital video camera used.

■ To insert or remove the SD Card / USB Flash Memory

**USB Flash Memory**
- Insert or remove straightly and completely.
- Connect the USB Flash Memory to the USB 1 or 2 port.

**SD Card**

① Gently insert the SD Card with the label surface facing front.

② Push until a click is heard. To remove, push it again.

- Check the type of terminals and devices are correct when connecting.
- For the information of the devices “Devices for recording or playing back” (p. 94)
- For the supported file format “Supported file format in Media Player and media servers” (p. 91, 92)
Starting Media Player

1 Insert the SD Card or USB Flash Memory to the TV  
⇒ (p. 61)

2 Confirm the message and start Media Player  
⇒ You can also start by pressing following button.  
⇒ “Watching External Inputs” (p. 29)

   ➢ 23/10/2011
   ➢ 1600X1200

   ➢ To display the information of the highlighted content

   ➢ You can also access each mode directly by using VIERA TOOLS. ⇒ (p. 36)
   ➢ Select the appropriate device and content for playing back each file.
   ➢ You can use the following buttons during playback. Set the code of the remote control to “73” (p. 30).

   ➢ Change the device

   You can change to the other device directly in the same mode if two or more devices are connected.

   1 While the thumbnail is displayed, display the device selection

   (yellow)

   2 Select the device to access

   ➢ Drive Select
   ➢ EXIT
   ➢ Select
   ➢ RETURN
   ➢ SD Card
   ➢ USB Drive...
   ➢ USB Flash...

   ➢ To change selected device

   ➢ You can also access each mode directly by using VIERA TOOLS. ⇒ (p. 36)
   ➢ Select the appropriate device and content for playing back each file.
   ➢ You can use the following buttons during playback. Set the code of the remote control to “73” (p. 30).
**Change the contents**

You can switch to the other mode of Media Player from the thumbnail view.
* The mode can be switched in the current device.

1. While the thumbnail is displayed, display the contents selection

   | (blue) | Access

2. Select the contents

   ![Contents Select]

   - select
   - access

**Photo mode**

Photo mode will read all “.jpg” extension files and supports “.mpo” extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.

Example: Thumbnail - [All photos]

![Media Player Photo All photos]

- To change the size of photos on a thumbnail screen

   ![OPTION]

   - select [Change Size]
   - change

   ![Error display]

**[Single view]** - Photos are displayed one at a time.

Select the file from the thumbnail of photos to be viewed

![Single view]

- select
- access

Example:

![Operation guide]

- To display / hide the operation guide
- To return to thumbnail
- To operate Single view

![Slideshow]

- To display / hide the operation guide
- To pause (return to Single view)
- To return to thumbnail

![Slideshow]

- To change the background music “Photo Settings” (p. 65)
To sort by folder, recorded date or recorded month

1 Display the view selection in the thumbnail view
   (green)

2 Select the sort type
   [Folder view]: Displays the thumbnail grouped by folder.
   - The files which are not into a folder will be collected to the folder named “/”.
   [Sort by Date] / [Sort by Month]: Displays the thumbnail grouped by the same date or month.
   - The group of the photos without a recorded date is shown as [Unknown].

   To return to the thumbnail of all photos
   (green) ① select [All photos] ② access

Multi Shot 3D

This TV can create the 3D photo using a pair of photos in the SD Card and save it into the same SD Card.
- This TV can also create the 3D photo from photos in the USB Flash Memory, but cannot save it.
- This function is available with photos recorded by digital cameras.
- Depending on the photos you select, the created 3D photo may not be suitable or the 3D photo creation may not be possible. It is recommended to take a photo (for L) and then move your camera to the right about 5 cm and take another photo (for R).
- To view the created 3D photo with 3D effect, you need the 3D Eyewear “Optional accessories” (p. 7)

1 Display the option menu in the thumbnail view

2 Select [Multi Shot 3D]

3 Select two photos for L (left) and R (right)
   You can only select photos of the same recorded date and same pixels.
   You may not be able to view the created 3D photo properly if you select the photos for L and R oppositely.

4 Create the 3D photo
   - If your selected photos are not suitable for the 3D photo, the error message will be displayed and will return to the photo selection screen (step 3).
   - To save the 3D photo in the SD Card

   After finishing saving the photo, the photo selection screen will be displayed (step 3). Select photos again to create another 3D photo or exit from [Multi Shot 3D] mode.
**To enjoy the saved 3D photos**

Saved 3D photos are displayed in the Thumbnail screen. Wear the 3D Eyewear and enjoy the 3D photos.

Example: Thumbnail

**Video mode**

* Supported file format (p. 91, 92)

The thumbnail of video titles in the SD Card or USB Flash Memory will be displayed. Example: Thumbnail - [Title view]

The preview will start when the title / scene is highlighted if it supports a preview.
- To turn off the preview ⇒ “Video Setup” (p. 68)
- To play back the selected title

Select the title Start playback

- If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.

### Playback from the selected scene in the title (SD-Video or AVCHD)

Playback of the selected scene will start to the end of the title.

1. Select the title
2. Select the scene
3. Start playback

- The structure of titles and scenes may vary depending on the digital video camera used.
- To repeat playback ⇒ “Video Setup” (p. 68)

### How to operate in the playback

**Example: Playback**

- To display / hide the operation guide and information banner

- To the previous title / scene

- To the next title / scene

- To operate the playback

- To jump to the specified time point

While the time seek bar is displayed

- Press: Search about 10 seconds
- Press and hold: Search rapidly
**Video Setup**
Setup the settings for Video mode.
* Menu items and selectable options vary depending on the content.

1. Display the option menu

   [One]: Playback repeat of the selected one file
Using Network Services (DLNA / VIERA Connect)

DLNA®
This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
It allows you to share photos, videos (including 3D images) and music stored in the DLNA Certified media server (for example, PC with Windows 7 installed, DIGA Recorder, etc.) connected to your home network, and enjoy the contents on the TV screen.
It also allows you to control the TV with the DLNA Certified equipment connected to your home network. (DLNA Remote Control)
- For the supported file format (p. 91, 92)
- AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 61).

Media server
Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.
“Windows 7” and “TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)” are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.
- Windows 7
  - The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  - “TwonkyMedia server” is the product of PacketVideo Corporation.
  - To obtain the Installation Guides for installing and setting “TwonkyMedia server”, visit the website of TwonkyMedia.
  - Additional fees may be charged to obtain server software.

  Note
  - For more information about the server software, please consult each software company.
  - When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

To use a DLNA compatible DIGA Recorder as a media server
By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.
- Please read the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

DLNA Remote Control
You can control the TV with the DLNA Certified equipment.
- To use this function, set [Network Link Settings]. (p. 72)
- “Windows 7” is the OS that has been tested for compatibility of this TV (as of January, 2011). For the operations, refer to the help functions of Windows 7.

Network connection ➔ “Example 1”, “Example 2” (p. 71)
Network setup ➔ (p. 72 - 75)
DLNA operations ➔ (p. 76 - 79)

VIERA Connect
VIERA Connect is a gateway to the internet services unique to Panasonic.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, communication tools, etc. from VIERA Connect home screen.
- This TV does not support full web browser function and some features of the websites may not be available.

Network connection ➔ “Example 1”, “Example 3” (p. 71)
Network setup ➔ (p. 72 - 75)
VIERA Connect operations ➔ (p. 19, 79)
Network connections

To use only DLNA features, you can operate the features without broadband network environment.
To use VIERA Connect features, you need a broadband network environment.

- If you do not have any broadband network services, please consult your retailer for assistance.
- Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

Wired connection

![Wired Connection Diagram]

Wireless connection

![Wireless Connection Diagram]

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

![DLNA Connection Diagram]

- Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

![VIERA Connect Connection Diagram]

Note

- Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.
Using Network Services (DLNA / VIERA Connect)

Network Setup

- Ensure the connections are completed before starting Network Setup.
  ⇒ “Network connections” (p. 71)

Display the menu and select [Network]

Ensure the connections are completed before starting Network Setup.

“Network connections” (p. 71)

Display the menu and select [Network]

Wired connection settings

This setting is for the network connection by using the LAN cable.

1 Select [Network Connection] and set to [Wired]

If you make the network connection like “Example 2” (p. 71), you do not have to set [Acquire DNS Address], [Proxy] and [Proxy Port].

2 Select [IP/DNS Settings] and set the items

- **[Acquire IP Address] / [Acquire DNS Address]**
  Sets [IP Address], [Subnet Mask], [Default Gateway] and [DNS Address].
  Select [Acquire IP Address] / [Acquire DNS Address] and set to [Auto] (recommended).

- **[Proxy Settings]**
  Sets Proxy address.
  - This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

3 Select [Proxy Settings] and set the items

- **[Proxy Port]**
  Sets Proxy port number.
  - This number is also specified by the provider with the Proxy address.
4 Select [Connection Test] and access to test

- \(^1\) select
- \(^2\) access

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

\(\checkmark\) : succeeded
The test is successful and the TV is connected to the network.

\(\times\) : failed
Check the settings and connections. And then try again.

Wireless connection settings

This setting is for the wireless network connection.
- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1 Select [Network Connection] and set to [Wireless]

- \(^1\) select
- \(^2\) access / store

- When the access point is already set, [Current Settings] screen will be displayed. To change the settings, select [No] on this screen and go to the next step.

2 Select [Wireless Network Settings]

- \(^1\) select
- \(^2\) access

3 Select your desired access point

- \(^1\) select
- \(^2\) access

- For [WPS(Push button)] (p. 18) (red)
- For [WPS(PIN)] (p. 75) (green)

- To search access points again (blue)

- For the information of the highlighted access point

- To set manually (p. 75) (yellow)

4 Access the encryption key input mode

- \(^{\text{?}}\) : Information icon

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.
5 Enter the encryption key of the access point

Set characters
① select
② set
* You can set characters by using numeric buttons.
* After settings, return to the previous menu.

6 Select [Connection Test] and access to test

① select
② access
* Performs automatic testing of the network connection for the TV. (It takes a while to test.)

[Wireless Network Settings]

Connection Test
" Connection Test
 Check wireless network connection.
 Check acquired IP address.
 Check for devices using same IP address.
 Check gateway connection.
 Check server connection.

[Connection Test]

☑ Check wireless network connection.
☑ Check acquired IP address.
☑ Check for devices using same IP address.
☑ Check gateway connection.
☑ Check server connection.

☑ : succeeded
The test is successful and the TV is connected to the network.
☑ : failed
Check the settings and connections. And then try again.
If you continue to have difficulty, please contact your internet service provider.

[WPS(PIN)]

Enter the PIN code to the access point, and then select [Connect]

WPS(PIN)

PIN code : 12345678
Select ‘Connect’ after entering and saving the settings on the wireless access point.

[Manual]

You can setup SSID, security type, encryption type, and encryption key manually.
Follow the on-screen instructions and set manually.
* When you use 11n (5 GHz) for the wireless system between the Wireless Adaptor and access point, select [AES] for the encryption type.

Wireless Network Settings

Network Name(SSID) : XXXXXXX

Security Type Settings

Connection will be made with the following settings:-
Network Name(SSID) : XXXXXXX
Please select the security type.

WPA2-PSK
WPA-PSK
Shared key

Update TV’s software

Accesses the specific website to update TV’s software and search if any software updates are available.

Select [Software Update]

① select
② access
* Follow the on-screen instructions.
Using DLNA® features

- Ensure the preparation of the media server, network connections and network settings are completed. ➞ (p. 70 - 75)

1 Display [VIERA TOOLS] and select [Media Server]

2 Select one of the media servers to access

Example: Media server list

3 Select the file

Example: File list

Note
- Non-playable files are also listed but cannot be selected.
- Turn the TV off, and then on again when changing or reconnecting the network connection.
- You can use the following buttons during playback. Set the code of the remote control to “73” (p. 30).

For photo file

[Single view] - Photos are displayed one at a time.

Example:

- To display / hide the operation guide
- To operate Single view
  - To the previous photo
  - Slideshow
  - To the next photo
  - Stop (return to list)
- To return to list
- To rotate 90° (blue)
[Slideshow] - Slideshow completes when all photos are viewed within the list.
1 Select the photo file from the list for the first view
2 Start Slideshow
- To display / hide the operation guide
- To pause (return to Single view)
- To return to list

For video file

Playback - Playback will start.
If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.
Example: Playback

For music file

Playback - Playback will start.
Example: Playback

For DIGA Recorder

Control the DIGA Recorder
The screen of the DIGA Recorder will be displayed. You can control the functions of the DIGA Recorder with this TV remote control according to the operation guide.
Example:
- Before operating, register this TV on the DIGA Recorder.
- For details, read the manual of the DIGA Recorder.
**Option menu for each content**

Setup the settings for Photo, Video and Music file operations.

1. **Display the option menu**
   - Press the OPTION button to display the option menu.

2. **Select [Slideshow Settings], [Video Setup] or [Music Setup]**
   - Use the 
     - select button to select the option menu.
     - access / store button to access or store the option.

3. **Select the items and set**
   - 
     - select
     - access / store

### Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
- [Fade]: The next photo fades in gradually.
- [Slide]: The next photo slides and appears from the left side.
- [Dissolve]: Each photo is dissolved when switching to the next photo.
- [Motion]: Each photo is displayed with an effect of enlarging, reducing, moving up or moving down.
- [Random]: Each transition is selected at random.

| Repeat | Slideshow repeat [Off] / [On]

**Video Setup**

| Video Preview | Sets to start the preview of the title or scene in the thumbnail screen [Off] / [On]
| Multi Audio, Dual Audio, Dual Mono Audio | Selects between selectable sound tracks (if available)
| Subtitle | Subtitles On / Off (if available)
| Subtitle Text | Selects the font type to display subtitles correctly (if available)
| Subtitle Language | Selects the language in which subtitles should appear (if available)
| Aspect Change | Displays the content enlarged without distortion.
| Repeat | Playback repeat [Off] / [Folder] / [One]

**Music Setup**

| Repeat | Playback repeat [Off] / [Folder] / [One]
| Folder | Playback repeat within the selected folder.
| One | Playback repeat of the selected one file.
Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

- To confirm or change the current sound status ⇒ (p. 68)

1 Display the menu and Select [Sound]

2 Select [SPDIF Selection] and set

Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
Sound | SPDIF Selection | SPDIF: A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto]: Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. DTS is output as DTS. MPEG is output as PCM.
[PCM]: Digital output signal is fixed to PCM.

VIERA Connect

You can access VIERA Connect and enjoy various network contents.

- VIERA Connect requires a broadband internet connection. Dial-up internet connections cannot be used.
- Ensure the network connections and network settings are completed.
  ⇒ “Network connections” (p. 71), “Network Setup” (p. 72 - 75)
- For details about VIERA Connect operation ⇒ (p. 19)

- Setup menu (Items in [Setup] may change without notice.)

<table>
<thead>
<tr>
<th>Customise HomeScreen</th>
<th>Changes the position of each services on VIERA Connect home screen</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

Note

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
  You can update the software later manually. ⇒ [Software Update] in [Network] (p. 75)
- VIERA Connect home screen is subject to change without notice.
- The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 Out] is set to [Monitor] in the Setup Menu (p. 42). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 81) and set to use theatre speakers (p. 87).
- You can restrict access to VIERA Connect. ⇒ [Child Lock] (p. 55)
- Turn the TV off, and then on again when changing or reconnecting the network connection.
Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. (p. 82)

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting. (p. 83 - 87)

You can use Q-Link and VIERA Link functions together.
* This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please read the manual of the equipment to confirm the version.
* VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

Q-Link (SCART connection)

<table>
<thead>
<tr>

**Connection**

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI2 terminal via an HDMI cable.
- Use fully wired SCART cable.
- If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV’s AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 42).
- Use the optical digital audio cable or SCART cable for audio output from the TV.

*1: Available with the equipment which has “HDAVI Control 2 or later” function.
*2: Available with the equipment which has “HDAVI Control 3 or later” function.
*3: Available with the equipment which has “HDAVI Control 4 or later” function.
*4: Available with a DIGA Recorder which has HDD.
*5: This function is available regardless of the version of HDAVI Control when the recorder supports Q-Link and is connected via SCART cable.

*6: While playing a disc.
*7: Except for watching a disc.
*8: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or SCART cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

**VIERA Link Control of compatible equipment**

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV. For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>
<thead>
<tr>
<th>Type of the equipment</th>

- When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
- You can change channel or turn the TV off while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

■ To stop recording
Unlock the tuner
turn off

Power on link and Easy playback
Set Power on Link [On] in the Setup Menu to use this function ➔ [Power on Link] (p. 42)
When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link
Set Power off Link [On] in the Setup Menu to use this function ➔ [Power off Link] (p. 42)
When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
- This function works even if the TV enters Standby mode automatically by auto power standby function.

Note
- Some recorders are not applicable. Read the manual of the recorder.
**VIERA Link “HDAVI Control”**

*Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.*

This TV supports “HDAVI Control 5” function.

Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 80, 81).

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

* Some functions are not available depending on the equipment’s version of HDAVI Control. Confirm the connected equipment’s version of HDAVI Control.
* VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
* Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.
* About applicable Panasonic equipment, consult your local Panasonic dealer.

### Preparations

* Connect the equipment supporting VIERA Link.
* VIERA Link connection ⇒ (p. 80, 81)
* Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  
  Recommended Panasonic’s HDMI cable part number:
  * RP-CDHS15 (1.5 m)
  * RP-CDHS30 (3.0 m)
  * RP-CDHS50 (5.0 m)

  * Use fully wired SCART cable.
  * Set up the connected equipment. Read the manual of the equipment.
  * For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.

  * Download preset - channel, language and country / region settings ⇒ “Preset download” (see below)

  * Set [VIERA Link] to [On] in the Setup Menu. ⇒ [VIERA Link] (p. 42)

  * Set up the TV.

  After connection, turn the equipment on and then switch the TV on.

  Select the input mode from HDMI1 or HDMI2 (p. 29), and make sure that an image is displayed correctly.

  This setup should be done each time when the following conditions occur:
  * for the first time
  * when adding or reconnecting equipment
  * when changing setup

### Features available

#### Preset download

Channel, language and country / region settings can be downloaded to the recorder.

* DVB-C channel settings cannot be downloaded.

* To download settings ⇒ [Download] (p. 43), [Auto Setup] (p. 15, 16, 46)

#### Easy playback

Automatic input switching - When the connected equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is returned.

#### Power on link

Set Power on Link [On] in the Setup Menu to use this function ⇒ [Power on Link] (p. 42)

When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

#### Power off link

Set Power off Link [On] in the Setup Menu to use this function ⇒ [Power off Link] (p. 42)

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

* This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function \[Standby Power Save\] (p. 42)

The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.

When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.

When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.

- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
- This function works when [Power off Link] is set to [On].

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function \[Intelligent Auto Standby\] (p. 43)

When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI or when Speaker Selection is changed to [TV] (except for watching a disc).

- If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to standby.
- This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record \[Direct TV Rec\]

Records the current programme in the DIGA Recorder immediately.

- If you connect a variety of recorders including other manufacturers’ recorders at the same time, connect the DIGA Recorder to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment.
  \[Summary of Q-Link and VIERA Link features\] (p. 80, 81), \[Preparations\] (p. 83)
  \To record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 82).
  \Depending on the programme, SCART connection may be required to record.
  \You can change channel or turn the TV off while the recorder is recording from its own tuner.
  \You can not change channel while the recorder is recording from the TV tuner.

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Direct TV Rec] and start recording

To stop recording

Select [Stop] in [Direct TV Rec]

- You can also stop recording directly when the code of the remote control is “73” (p. 30).
Pause Live TV programme [Pause Live TV]

You can pause the current TV programme and resume later.
The current TV programme will be recorded on HDD of the connected DIGA Recorder.
- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, connect the DIGA Recorder which has HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment.
  “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Pause Live TV] and pause
The TV picture will be paused.

To operate [Pause Live TV]
- Search backward
- Pause
- Playback
- Search forward
- Stop
  * If you stop playback, the recorded programme will be deleted from HDD.

To return to current TV (Stop playback of [Pause Live TV] / cancel pause)
Select [Yes]

Control the menu of the connected equipment by VIERA remote control
[VIERA Link Control]
You can control some functions of the connected equipment with this TV remote control pointing at the TV’s signal receiver.
- If you cannot operate, check the settings and the equipment.
  “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)
  For details of the operations for the connected equipment, read the manual of the equipment.

1 Display [VIERA TOOLS] and select [VIERA Link]
Select [VIERA Link Control]

Select the equipment to access

Operate the menu of the equipment

- Set the code of the remote control to “73” (p. 30).

Follow the operation guide
- To display the operation guide

If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.
- Available VIERA remote control buttons depend on the connected equipment.

Note
- Some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

If multiple recorders or players are connected

The number is given from the TV’s lower number of HDMI terminal connected to the same type equipment. For example, two recorders to HDMI1 and HDMI2, the recorder connected to HDMI1 is displayed as [Recorder1], and the recorder connected to HDMI2 is displayed as [Recorder2].

If you access non-VIERA Link equipment

The type of the connected equipment is displayed. Although you can access the connected equipment, you cannot operate it. Use its own remote control to operate the equipment.
Speaker control [Speaker Selection]

You can control the theatre speaker with this TV remote control pointing at the TV's signal receiver.

* If you cannot operate, check the settings and the equipment.

⇒ “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)

1. Display [VIERA TOOLS] and select [VIERA Link]

2. Select [Speaker Selection]

3. Set to [Home Cinema] or [TV]

[Home Cinema]:
The sound is from theatre speakers. Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode.

* Volume up / down

* Mute

* The sound of TV speakers is mute.
* When the equipment is turned off, TV speakers will be active.

[TV]:
TV speakers are active.

Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 81), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you only need to connect it with HDMI cable to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 81).

Note

* These functions may not work properly depending on the connected equipment.
* Image or sound may not be available for the first few seconds when input mode is switched.
* “HDAVI Control 5” is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
* To confirm this TV’s version of HDAVI Control ⇒ [System Information] (p. 45)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the basic connection (p. 12 - 14), the table (p. 89), and the specifications (p. 102, 103).

* Check the type of terminals and cable plugs are correct when connecting.

To watch DVDs

![Diagram of connections to watch DVDs](image)

To listen with speakers

![Diagram of connections to listen with speakers](image)

USB devices

![Diagram of USB device connections](image)

HDMI equipment

![Diagram of HDMI equipment connections](image)

To enjoy the sound from the external equipment in multi-channel sound (e.g. Dolby Digital 5.1ch), connect the equipment to the amplifier. For the connections, read the manuals of the equipment and amplifier.
### Headphones

○: Recommended Connection

*1: Use HDMI1 for automatic input switching.

*2: Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.

*3: Use USB 2 port for connecting the Communication Camera.
Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images. ➔ (p. 23)

- **Aspect Control Signal**
  [WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.
  The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.
  This function will work in any aspect mode.

</tbody>
</table>

- **Auto mode**
  Auto mode determines the best aspect ratio to fill the screen using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).
  This process may take several minutes, depending on the darkness of the image.
  Letterbox detection:
  If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.
  If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

- **Note**
  - The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.
  - If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.
## Supported file format in Media Player and media servers

**Note**

- Some files may not be played back even if they fulfil these conditions.
- Do not use two-byte characters or other special codes for data.
- The device may become unusable with this TV if the file or folder names are changed.
DivX

DivX Certified® to play DivX® and DivX Plus® HD (H.264/MKV) video up to 1080p HD including premium content.

ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX videos.

Subtitle text file of DivX
Subtitle format - MicroDVD, SubRip, TMPlayer

- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority:
  "srt", "sub", "txt".
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note
- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

To show DivX VOD registration code
[DivX® VOD] (p. 44)

- If you want to generate the new registration code, you have to deregister the current registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the current registration code.
- You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times. When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)

- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  - If you exit the current application.
  - If you play the other content.
  - If you go to the next or previous content.
Devices for recording or playing back

**SD Card**
Card format:
- SDXC Card - exFAT
- SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity):
- SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website. (English only)
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

**USB Flash Memory** (for playing back in Media Player)
USB Flash Memory format: FAT16, FAT32 or exFAT
- A USB HDD formatted by PC is not guaranteed in Media Player.

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction. Otherwise this can damage device or TV.
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.

**HDMI connection**
HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

**HDMI-compatible equipment** with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

For more information about connections (p. 13, 88)

**Applicable HDMI features**
- Input audio signal:
  - 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal:
  - "Input signal that can be displayed" (p. 95)
- Input PC signal:
  - "Input signal that can be displayed" (p. 95)
- VIERA Link (HDAVI Control 5)
  - [VIERA Link] (p. 83)
  - 3D
  - Content Type
  - Deep Colour
  - x.v.Colour™
  - Audio Return Channel*2
    (HDMI2 terminal only)

**DVI connection**
If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable.*3

When the DVI to HDMI adaptor cable is used, connect the audio cable to AV2 audio terminals.

**Note**
- Audio settings can be made on [HDMI1 / 2 Input] in the Sound Menu. (p. 41)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to "16:9".
- These HDMI connectors are "type A".
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.
**USB connection**

- When using USB cables, use the supplied Ferrite core (Middle size) for each cable to comply with the EMC standard. As for installing the Ferrite core, refer to the installing of the Ferrite core for headphones. ⇒ (p. 89)
- It is recommended to connect the USB Flash Memory or Communication Camera to the TV's USB ports directly.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.
- Additional information for USB devices may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

**USB Keyboard**

- The USB Keyboard requiring its driver is not supported.
- To change the language type ⇒ *[USB Keyboard Layout] (p. 45)*
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

<table>
<thead>
<tr>

</table>

**Gamepad**

- Check the gamepads that have been tested for the performance with this TV at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
- Some of the keys of gamepads correspond to the operation of the remote control.

**Input signal that can be displayed**

**COMPONENT (Y, Pb, Pr) (from AV2 terminal), HDMI**

<table>
<thead>
<tr>
<th>Signal name</th>
<th>COMPONENT</th>
<th>HDMI</th>
</tr>
</thead>
<tbody>
<tr>
<td>525 (480) / 60i, 60p</td>
<td>○</td>
<td>○</td>
</tr>
<tr>
<td>625 (576) / 50i, 50p</td>
<td>○</td>
<td>○</td>
</tr>
<tr>
<td>750 (720) / 60p, 50p</td>
<td>○</td>
<td>○</td>
</tr>
<tr>
<td>1,125 (1,080) / 60i, 50i</td>
<td>○</td>
<td>○</td>
</tr>
<tr>
<td>1,125 (1,080) / 60p, 50p, 24p</td>
<td>○</td>
<td>○</td>
</tr>
</tbody>
</table>

- Applicable input signal

**PC (from HDMI terminal)**

<table>
<thead>
<tr>
<th>Signal name</th>
<th>Horizontal frequency (kHz)</th>
<th>Vertical frequency (Hz)</th>
</tr>
</thead>
<tbody>
<tr>
<td>640 × 480 @60 Hz</td>
<td>31.47</td>
<td>60.00</td>
</tr>
<tr>
<td>1,280 × 720 @60 Hz</td>
<td>45.00</td>
<td>60.00</td>
</tr>
<tr>
<td>1,920 × 1,080 @60 Hz</td>
<td>67.50</td>
<td>60.00</td>
</tr>
</tbody>
</table>

Applicable input signal for PC is basically compatible to HDMI standard timing.

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not show fine detail with sufficient clarity.
### Characters table for numeric buttons

You can enter characters by using numeric buttons for free input items.

<table>
<thead>
<tr>
<th>User input</th>
<th>Name</th>
<th>Characters</th>
<th>Numeric buttons</th>
<th>Characters</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>B C D E F G H I J K L M N O P Q R S T U V W X Y Z</td>
<td>! @ # $ % ^ &amp; * ( ) _ + - .</td>
<td>1 2 3 4 5 6 7 8 9</td>
<td>a b c d e f g h i j k l m n o p q r s t u v w x y z</td>
</tr>
</tbody>
</table>

Press the numeric button repeatedly until you reach the desired character.

- The character is set automatically if you leave for 1 second.
- You can also set the character by pressing the OK button or other numeric buttons within 1 second.
- The characters may vary depending on the input items.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem.
If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 51). If [Signal Quality] is displayed in red, the DVB signal is weak.
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer or service provider for the availability of services.

No programmes shown on TV Guide
- Check the digital transmitter.
- Adjust the direction of the aerial to another transmitter installed nearby.
- Check the analogue broadcast. If the image quality is poor, check the aerial and consult your local dealer.

Neither image nor sound is produced
- Check the TV is turned on.
- Check the mains lead is plugged into the TV and the socket outlet.
- Check the TV is in AV mode.
- Check the correct input mode is selected.
- Check the Picture Menu (p. 38, 39) and volume.
- Check all required cables and connections are firmly in place.

Auto aspect
- Auto aspect is designed to provide you with the best ratio to fill the screen. ➔ (p. 90)
- Press the ASPECT button if you want to change the aspect ratio manually. ➔(p. 23)

Black and white picture
- Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Q-Link function does not work
- Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu. ➔(p. 42)

[VIERA Link] function does not work and an error message appears
- Confirm the connection. ➔(p. 80, 81)
- Turn the connected equipment on and then switch the TV on. ➔(p. 83)

Recording does not start immediately
- Check the settings of the recorder. For details, read the manual of the recorder.

The screen becomes dim
- This occurs when the contrast is lowered automatically to avoid image retention in the following conditions without any user operation for a few minutes:
  - No signal in DVB or AV mode
  - Selected locked channel
  - Selected invalid channel
  - Selected radio channel
  - Displayed menu
  - Thumbnail or still picture
<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | - Set [P-NR] in the Picture Menu to remove noise. \((p. 38)\)  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | - Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? \((p. 38)\)  
- Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. \((p. 29)\) |
| Blurry or distorted image (no sound or low volume) | - Reset channels. \((p. 46, 47)\) |
| Unusual image is displayed | - Turn the TV off with Mains power On / Off switch, then turn it on again.  
- If the problem persists, initialise all settings. \([\text{Shipping Condition}] (p. 58)\) |
| No sound is produced | - Is “Sound mute” active? \((p. 10)\)  
- Is the volume set to the minimum? |
| Sound level is low or sound is distorted | - Sound signal reception may be deteriorated.  
- Set [MPX] \((p. 40)\) in the Sound Menu to [Mono]. \((\text{Analogue})\) |
| Unusual sound from the TV | - When power is on, drive noise may be heard from inside the TV (not a sign of faulty operation). |
| Cannot view 3D images | - Has the 3D Eyewear been switched on, set to 3D mode and registered with this TV? For details, read the manual of the 3D Eyewear.  
- Check the remaining battery level of the 3D Eyewear. \((\text{Battery status is displayed on the screen when the 3D Eyewear is turned on.})\)  
- Does the 3D Eyewear support Bluetooth wireless technology? \((p. 32)\)  
- Ensure that [3D Mode Selection] is set to [3D]. \((p. 33)\)  
- Some 3D image signals may not be automatically recognised as 3D images. Set [3D Mode Selection (Manual)] to match the picture format. \((p. 34)\)  
- Use the 3D Eyewear within approximately 3.2 m from the TV.  
- Check that there are no obstacles between the TV and the 3D Eyewear.  
- For some people, the 3D images may be difficult to see, or cannot be seen, especially in users who have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use. |
| 3D Eyewear is turned off automatically | - Check that there are no obstacles between the TV and the 3D Eyewear. |
| There is something wrong with the 3D images | - Check the setting of [Picture Sequence] or [Edge Smoother]. \((p. 35)\) |
| The indicator lamp does not light when pressing the power button on the 3D Eyewear | - The battery may be running low or flat. Recharge it. |
| Sound is unusual | - Set the sound setting of the connected equipment to “2ch L.PCM”.  
- Check the [HDMI1 / 2 Input] setting in the Sound Menu. \((p. 41)\)  
- If digital sound connection has a problem, select analogue sound connection. \((p. 94)\) |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | - Check the HDMI cable is connected properly. \((p. 88)\)  
- Turn the TV and equipment off, then turn them on again.  
- Check an input signal from the equipment. \((p. 95)\)  
- Use equipment compliant with EIA/CEA-861/861D. |

<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| Cannot connect to the network                | • Check the LAN cable or Wireless Adaptor is connected properly. (p. 71)  
• Check the connections and settings. (p. 71 - 75)  
• Check the network equipment and network environment.  
• The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. (p. 73)  
• The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 42) and set the router to use it.  
• If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | • Is media server of the connected equipment prepared? (p. 70)  
• Check applicable data format. (p. 91, 92)                                                                                                           |
| Cannot operate VIERA Connect                 | • Check the connections and settings. (p. 71 - 75)  
• The server or connected line may be busy now.                                                                                                         |
| The TV does not switch on                    | • Check the mains lead is plugged into the TV and the socket outlet.                                                                                                                                            |
| The TV goes into Standby mode                | • Auto power standby function is activated. (p. 11)  
• The TV enters Standby mode about 30 minutes after analogue broadcasting ends.                                                                      |
| The remote control does not work or is intermittent | • Are the batteries installed correctly? (p. 7)  
• Has the TV been switched on?  
• The batteries may be running low. Replace them.  
• Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV).  
• Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver. |
| Parts of the TV become hot                    | • Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality. |
| Permanently lit spots on screen              | • Due to production process involved in this technology this may result in some pixels which are permanently lit or unlit. This is not a malfunction.                                                              |
| Overcurrent error message appears            | • The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again.  
• Check foreign objects are not inside the USB port.                                                                                                   |
| An error message appears                     | • Follow the message's instructions.  
• If the problem persists, contact your local Panasonic dealer or the authorised service centre.                                                               |
Maintenance

First, remove the mains plug from the socket outlet.

### Display panel, Cabinet, Pedestal

**Regular care:**
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

**For stubborn dirt:**
First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.

**Caution**
- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

### Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union
If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Customer’s Record
The model number and serial number of this product may be found on its rear panel. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
